

GROOVED OPTICAL MICROSTRUCTURE
LIGHT COLLIMATING FILMS

ABSTRACT OF THE DISCLOSURE

A light collimating film includes a sheet having a first side and a second side.

- 5 The first side can include a series of optical elements and the second side includes a series of stepped plateaus and a series of base planes that run along a first axis. The plateaus and base planes alternate along a second axis and the plateaus have an elevation different than the base planes.
